Little Picassos

Little Picassos Schwabing is led by Cynthia Drack, a native English speaker, artist, and experienced art educator. Together with her dedicated team, Cynthia offers inspiring Fine Art classes in English for children and adults, both in group and individual settings.

For more than 15 years, Little Picassos has partnered with kindergartens, international schools, private schools, Grundschulen, Gymnasiums, and businesses, providing high-quality Fine Art education that nurtures creativity and personal growth.

Cynthia holds a Bachelor of Business and a Bachelor of Arts. She combines her expertise in psychology, marketing, visual communication, and Fine Art education to create engaging lessons that inspire children to develop a lifelong appreciation for Fine Art.

Our Approach

At Little Picassos, we focus on the development of the whole child. During each class, teachers support children's growth in four key areas:

- Physical development – strengthening fine motor skills and coordination
- Mental development – encouraging creativity, observation, problem-solving, and connections to subjects such as maths and science
- Social development – fostering teamwork, communication, and collaboration
- Emotional development – building self-confidence, resilience, and self-expression

Each child receives individual attention and encouragement. We carefully observe their artistic progress, celebrate their strengths, and help them develop age-appropriate skills while nurturing self-awareness and confidence.

What Children Learn

Children experiment with a wide variety of artistic techniques and materials while learning the foundations of Fine Art.

Techniques include:

- Colour Theory
- Printmaking
- Collage
- Composition and Drawing
- Dry and Wet Painting Techniques

Mediums include:

- Acrylic Paint
- Gouache
- Watercolour Paint
- Chalk

- Charcoal (soft and hard)
- Coloured Pencils
- Oil Pastels

All materials used in class are high-quality and non-toxic.

Exploring Art and Creativity

Students are introduced to:

- Famous Artists
- Observation Drawing
- Nature Art
- Abstract Art
- Visual Storytelling

Every lesson is carefully structured, innovative, and enjoyable, helping children remember artistic techniques, artists, and creative concepts. Children are encouraged to work both independently and collaboratively, allowing them to express themselves freely, develop their unique artistic voice, and experience the joy of the creative process.
